

Effective May 4, 2020 our office is instituting some changes to keep our patients and staff as healthy as possible.

We ask that **everyone wears a masks** when they are in the office.

Patients are allowed to bring at most **one person** along with them to their appointment.

All patients should **call ahead to schedule a time to come in** the office to pick up glasses or contact lenses, for adjustments, or to pick out glasses. This assures you that there won't be too many people in the office.

New patients, please fill out the **Patient Information Form** located on our website under "Forms" and bring it in with you to your appointment.

We understand that your eye care needs are important, and these changes will assure a safe and healthy experience for you.
